Makrand Sinha

Contact Information

Address	Centrum Wiskunde & Informatika Science Park 123, 1098 XG Amsterdam, NETHERLANDS
Phone	+31 20 592 4170
email	Makrand.Sinha@cwi.nl
homepage	makrandsinha.github.io

Research Interests

- Quantum Computing, Computational Complexity, Optimization, Stochastic Processes

Employment

Nov 2018-present **Centrum Wiskunde & Informatika (CWI)**, Amsterdam
Postdoctoral Researcher in the *Networks & Optimization* group
Advisors: Ronald de Wolf, Monique Laurent, Nikhil Bansal

Education

Aug 2018 **University of Washington**, Seattle
Ph.D. in *Computer Science and Engineering*
Advisor: Anup Rao
Dissertation: Lower Bounds for Interactive Compression and Linear Programs

May 2011 **ETH Zürich**, Switzerland
M. Sc. in *Computer Science (Theory of Computing)*
Advisor: Thomas Holenstein

May 2009 **Indian Institute of Technology Kanpur**, India
Bachelor of Technology in *Computer Science and Engineering*

Publications

1. k**-Forrelation Optimally Separates Quantum and Classical Query Complexity** [arXiv]
   Nikhil Bansal and Makrand Sinha
   Manuscript (under submission).

2. **Majorizing Measures for the Optimizer**
   Sander Borst, Daniel Dadush, Neil Olver and Makrand Sinha
   Manuscript (under submission).

3. **Online Discrepancy Minimization for Stochastic Arrivals** [arXiv]
   Nikhil Bansal, Haotian Jiang, Raghu Meka, Sahil Singla and Makrand Sinha
   To appear in 32nd Symposium on Discrete Algorithms (**SODA '21**).

4. **Online Vector Balancing and Geometric Discrepancy** [arXiv]
   Nikhil Bansal, Haotian Jiang, Sahil Singla and Makrand Sinha
   Appeared in 52nd Symposium on Theory of Computing (**STOC '20**). Invited talk at **TCS+**.

5. **Exponential Separation between Quantum Communication and Logarithm of Approximate Rank** [arXiv]
   Makrand Sinha and Ronald de Wolf
   Appeared in IEEE 60th Annual Symposium on Foundations of Computer Science, (**FOCS** '19).
   Invited talk at Quantum Information Processing (**QIP '20**) as part of a joint submission.

6. **Simplified Separation of Information and Communication** [ECCC]
   Anup Rao and Makrand Sinha
   Appeared in **Theory of Computing**, December 2018.

7. **Edge Estimation with Independent Set Oracles** [arXiv]
   Paul Beame, Sariel Har-Peled, Sivaramakrishnan Natarajan Ramamoorthy, Cyrus Rashtchian and Makrand Sinha
   Appeared in the 9th Innovations in Theoretical Computer Science (**ITCS '18**).
   Full version in ACM **Transaction on Algorithms**.

8. **Lower Bounds for Approximating the Matching Polytope** [arXiv][ECCC]
   Makrand Sinha
   Appeared in the 29th Annual ACM-SIAM Symposium on Discrete Algorithms (**SODA '18**).
   Invited talk at International Symposium on Mathematical Programming (**ISMP '18**).

9. **A Direct-sum Theorem for Read-Once Branching Programs** [pdf]
   Anup Rao and Makrand Sinha
   Appeared in the 20th International Workshop on Randomization and Computation (**RANDOM '16**)

10. **Fooling Pairs in Randomized Communication Complexity** [ECCC]
    Shay Moran, Makrand Sinha and Amir Yehudayoff
    Appeared in proceedings of the 23rd International Colloquium on Structural Information and Communication Complexity (**SIROCCO '16**)

11. **On the Communication Complexity of Greater-Than** [pdf]
    Sivaramakrishnan Natarajan Ramamoorthy and Makrand Sinha
    Appeared in the 53rd Annual Allerton Conference on Communication, Control and Computing (**Allerton '15**)

12. **Constructing a Pseudorandom Generator Requires an Almost Linear Number of Calls** [arXiv]
    Thomas Holenstein and Makrand Sinha
    Appeared in 53rd Annual Symposium on Foundations of Computer Science (**FOCS' 12**)

13. **Vertices of Degree k in Random Unlabeled Trees** [pdf]
    Konstantinos Panagiotou and Makrand Sinha
    Appeared in proceedings of **EuroComb '09**. Full version appeared in **Journal of Graph Theory**, 2012

Research Visits

Sep 14-Oct 14	**Technion-Israel Institute of Technology** Visiting Researcher
Jul 13-Oct 13	**Microsoft Research India** Research Internship
Jun 13-Jul 13	**Technion-Israel Institute of Technology** Visiting Researcher
May 08-Jul 08	**ETH Zürich** Research Internship

Organized Workshops

- Organized the post-conference workshop *'Extension Complexity and Lifting Theorems'* at **FSTTCS '19**.

Talks

	k-Forrelation Optimally Separates Quantum and Classical Query Complexity
Sep 2020	QuSoft Seminar, *CWI (Virtual)*
Sep 2020	Quantum Information Seminar, *UT Austin (Virtual)*
	Online Vector Balancing and Geometric Discrepancy
Jun 2020	STOC '20, *Virtual*
May 2020	N&O Seminar, *CWI*
	Tutorial: Lower Bounds for Extension Complexity
Dec 2019	FSTTCS '19 Workshop, *IIT Bombay*
	Exponential Separation between Quantum Communication and Logarithm of Approximate Rank
Nov 2019	FOCS '19, *Baltimore*
Oct 2018	Seminar, *ENS Lyon*
Jun 2019	Seminar, *Institute of Mathematics, Czech Academy of Sciences*
Sep 2019	QuantAlgo Workshop, *CWI*
Sep 2019	Seminar, *Université de Libre Bruxelles*
Apr 2019	QuSoft Seminar, *CWI*
	Lower Bounds for Approximating the Matching Polytope
Sep 2018	Simons Institute, *Berkeley*
Jul 2018	ISMP 2018, *Bordeaux*
Mar 2018	Seminar, *CWI Amsterdam*
Jan 2018	SODA 2018, *New Orleans*
Nov 2017	UW Theory Seminar, *University of Washington*
	A Direct-sum Theorem for Read-Once Branching Programs
Sep 2016	APPROX-RANDOM 2016, *IHP Paris*
	Simplified Separation of Information and Communication
Mar 2018	Theory Seminar, *KTH Stockholm*
Dec 2015	UW Theory Seminar, *University of Washington*
	On Parallelizing Streaming Computation
Apr 2015	Workshop on Information Theory in Complexity Theory and Combinatorics, *Simons Institute*
	Direct Sums and Compression for Parallel Streaming Computation
Feb 2014	UW Theory Seminar, *University of Washington*
	Constructing a Pseudorandom Generator Requires an Almost Linear Number of Calls
Oct 2012	FOCS 2012, *New Brunswick*
Apr 2012	UW Theory Seminar, *University of Washington*

Teaching Experience

CWI

- Organized a reading group on *Random Matrices, Matrix Concentration and connections to Quantum Information Theory* (Fall 2019)

University of Washington

- Guest lecturer for several lectures in a graduate course on *Communication Complexity* (Autumn 2015).
- Teaching Assistant for graduate *Randomized Algorithms* (Winter 2015), undergraduate *Algorithms* (Summer 2014, Spring 2014), undergraduate *Complexity Theory* (Spring 2013).

- Organized and lectured in student reading groups: *Fourier Analysis* (Summer 2012, Organizer), *Recent developments in Theory* (Spring 2013, Organizer), *Incidence Geometry* (Winter 2014), *Recent developments in Theory* (Winter 2015), *Additive Combinatorics* (Spring 2016).
- Gave a popular science talk at Town Hall Seattle:

  P vs NP: The Limits of Computers (May 2013), UW Science Now, *Town Hall Seattle*.

Academic Awards

- *Computer Science and Engineering Research Fellowship* at University of Washington for the year 2011-2012
- *Excellence Scholarship* at ETH Zürich from 2009-2011
- *Academic Excellence Award* for the year 2005-06 at IIT Kanpur
- *All India Rank 82* (among top 0.05% candidates) in IIT-Joint Entrance Examination 2005

Other Professional Activities

1. Conference Reviewer for RANDOM, STOC, FOCS, CCC, ITCS, ICALP, QIP, SODA
2. Journal Reviewer for Random Structures & Algorithms, Theoretical Computer Science, JACM, SICOMP, Information and Computation
